Template Manual

Anotte HTML

Thank You :)

Thanks for purchasing template and for supporting our work. Anotte is our new fancy template. Responsive, clean and professional look with sleek design will satisfy all your needs.

You will need basic HTML, CSS, jQuery skills to edit Anotte HTML. We will try to help you out with this documentation.

HTML Structure

Anotte consist several HTML files

- index.html - Home page
- about.html
- blog.html
- single.html
- portfolio-1.html
- portfolio-2.html
- portfolio-3.html
- gallery.html
- gallery-bw.html
- gallery-inverse-bw.html
- contact.html

Home Page index.html

On Home section is placed horizontal carousel which is placed in right part of screen. Html code for carousel looks like this:

```
<div class="horizontal-slider image-slider-wrapper relative">
  <div class="swiper-wrapper image-slider slider">
    <div class="swiper-slide text-slide">
      <div class="carousel-item-text">
        <p class="title-description-up">PHOTOGRAPHY</p>
        <h1 class="entry-title big-text">Art of the Camera</h1>
        <div class="carousel-content">
          Courage of our questions ship of the imagination across th
          centuries, the only home we've ever known descended from
          astronomers ship of the imagination intelligent beings.
        </div>
      </div>
    </div>
  </div>
</div>

<div class="swiper-slide">
  <div class="carousel-item-image">
    <a href="portfolio-1.html" class="img-thumb">
      
    </a>
    <div class="carousel-item-info">
      <div class="carousel-cat-links">
        <ul>
          <li class="portfolio-category">
            <a href="#">People</a>
          </li>
          <li class="portfolio-category">
            <a href="#">Square</a>
          </li>
        </ul>
      </div>
    </div>
  </div>
</div>
```

```
                <h2>
                    <a href="portfolio-1.html">Everyday</a>
                </h2>
            </div>
            <p class="post-num">
                <span>01</span>
                <span class="total-num">05</span>
            </p>
        </div>
    </div>
</div>

<div class="swiper-slide">
    <div class="carousel-item-image">
        <a href="portfolio-2.html" class="img-thumb">
            
        </a>
        <div class="carousel-item-info">
            <div class="carousel-cat-links">
                <ul>
                    <li class="portfolio-category">
                        <a href="#">People</a>
                    </li>
                    <li class="portfolio-category">
                        <a href="#">Portrait</a>
                    </li>
                </ul>
            </div>
            <h2>
                <a href="portfolio-2.html">The Dawn</a>
            </h2>
        </div>
        <p class="post-num">
            <span>02</span>
            <span class="total-num">05</span>
        </p>
    </div>
</div>
<div class="swiper-slide more-posts-portfolio">
    <div class="portfolio-slider-load-more">
        <span class="more-portfolio-posts">LOAD MORE</span>
    </div>
</div>

</div>
</div>
```

Configuration code (JS) is placed in js/main.js file and it looks like this:

```
function setUpCarouselSlider() {
  if (jQuery('.horizontal-slider').length) {
    if (jQuery(window).width() >= 1007 && $mySwiper == undefined)
    {
      jQuery('.swiper-wrapper').removeClass('no-horizontal-slider');
      $mySwiper = new Swiper('.horizontal-slider', {
        slidesPerView: 'auto',
        spaceBetween: 0,
        mousewheel: {
          releaseOnEdges: true
        },
        keyboard: true,
        simulateTouch: false,
        pagination: {
          el: '.swiper-pagination',
          clickable: true
        },
        freeMode: true

      });
    }

    if (jQuery(window).width() < 1007 && $mySwiper !== undefined)
    {
      $mySwiper.destroy();
      $mySwiper = undefined;
      jQuery('.swiper-wrapper').removeAttr('style').addClass('no-horizontal-slider');
      jQuery('.swiper-slide').removeAttr('style');
    }
  }
}
```

Gallery

On Gallery page you will find code like this:

```
<div class="horizontal-slider image-slider-wrapper relative">
  <div class="swiper-wrapper image-slider slider">
    <div class="swiper-slide text-slide swiper-slide-active">
      <div class="carousel-item-text">
        <p class="title-description-up">PHOTO SESSSION</p>
        <h1 class="entry-title big-text">Natural Look</h1>
        <div class="carousel-content">
          Courage of our questions ship of the imagination across the
          centuries, the only home we've ever known descended from
          astronomers ship of the imagination intelligent beings.
        </div>
      </div>
    </div>
    <div class="swiper-slide gallery-slide">
      <div class="carousel-item-gallery">
        <div class="carousel-content">
          <ul class="coco-image-gallery">

            <li class="coco-gallery-item">
              <a href="images/image_30.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Graphic Design">
                

              </a>
              <p class="gallery-item-text">Graphic Design</p>
            </li>

            <li class="coco-gallery-item">
              <a href="images/image_31.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Love Addict">
                

              </a>
              <p class="gallery-item-text">Love Addict</p>
            </li>

          </ul>
        </div>
      </div>
    </div>
  </div>
</div>
```

```
<li class="coco-gallery-item">
  <a href="images/image_32.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Plate Mockup">
    
  </a>
  <p class="gallery-item-text">Plate Mockup</p>
</li>

<li class="coco-gallery-item">
  <a href="images/image_33.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Portrait">
    
  </a>
  <p class="gallery-item-text">Portrait</p>
</li>

<li class="coco-gallery-item">
  <a href="images/image_34.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Desk">
    
  </a>
  <p class="gallery-item-text">Desk</p>
</li>

<li class="coco-gallery-item">
  <a href="images/image_35.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Skyscraper">
    
  </a>
  <p class="gallery-item-text">Skyscraper</p>
</li>

<li class="coco-gallery-item split-gallery">
  <a href="images/image_36.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Phone Mockup">
    
  </a>
  <p class="gallery-item-text">Phone Mockup</p>
</li>

<li class="coco-gallery-item">
  <a href="images/image_37.jpg"
```

```
data-rel="prettyPhoto[gallerySlider]" title="Building">
    
    </a>
    <p class="gallery-item-text">Building</p>
</li>

<li class="coco-gallery-item">
    <a href="images/image_38.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Above Clouds">
        
        </a>
        <p class="gallery-item-text">Above Clouds</p>
</li>

<li class="coco-gallery-item">
    <a href="images/image_39.jpg"
data-rel="prettyPhoto[gallerySlider]" title="My Perfume">
        
        </a>
        <p class="gallery-item-text">My Perfume</p>
</li>

<li class="coco-gallery-item">
    <a href="images/image_40.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Branding">
        
        </a>
        <p class="gallery-item-text">Branding</p>
</li>

<li class="coco-gallery-item">
    <a href="images/image_41.jpg"
data-rel="prettyPhoto[gallerySlider]" title="Sneakers">
        
        </a>
        <p class="gallery-item-text">Sneakers</p>
</li>
</ul>
</div>
</div>
</div>
</div>
</div>
```

The code for Black and White gallery and the Inverse Black and white are the same, but there is only one additional class:

For Black and White is:

```
<div class="swiper-slide gallery-slide black-white">
```

For Inverse Black and White is:

```
<div class="swiper-slide gallery-slide inverse-black-white">
```

Single post - single.html

On Single post you will find code like this (image slider code):

```
<div id="slider" class="simple-image-slider-wrapper relative swiper-container">
  <div class="swiper-wrapper image-slider slider">
    <div class="swiper-slide">
      
    </div>
    <div class="swiper-slide">
      
    </div>
    <div class="swiper-slide">
      
    </div>
  </div>
  <div class="clear"></div>
  <div class="swiper-pagination simple-image-slider-pagination
swiper-pagination-slider"></div>
</div>
```

If you need one more slider per page, duplicate that code and change **"slider"** string in **id** with **slider2** :

```
<div id="slider2" class="simple-image-slider-wrapper relative swiper-container">
```

and in pagination:

```
<div class="swiper-pagination simple-image-slider-pagination swiper-pagination-slider2"></div>
```

Mail Configuration

Note: Do not remove any quote or double quote signs while doing this.

One notice: this will be functional only on your server, php file can not be executed on your local computer.

Just add your own email address here in your config.php file.

```
//SITE GLOBAL CONFIGURATION
```

```
$email = "your@email.here"; //<-- Your email
```
